

About Us

Jamestown Feed and Seed opened for business in April of 1982 and has become a staple in Norge and surrounding communities. For 26 years, we have been supplying quality feed for all types of domestic and farm animals. Every spring our greenhouse is stocked with vegetable and flowering plants, trees and shrubs, grass seed and fertilizers and our knowledgeable staff is here to help you with all your lawn and gardening needs.

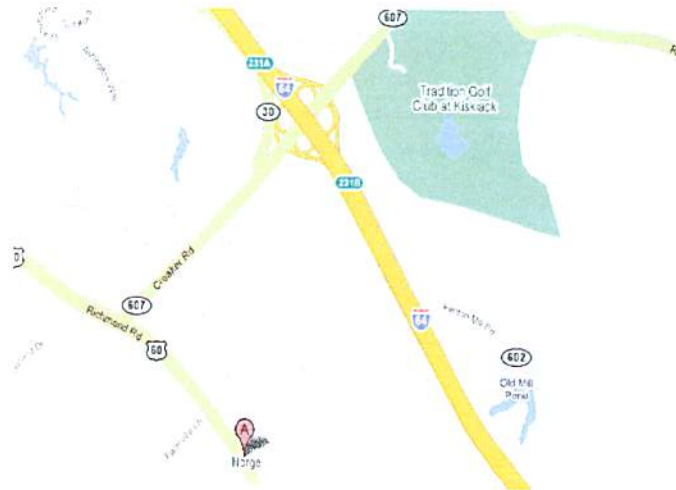

In February 2008, original owners Jerry and Kay Ainsworth retired and new owners Don Fitch and Shirley Hatten took over the store's operation. We continue to have the same great friendly service that the community has come to love and expect.

So come on in and check us out. We'd love to see you!
